

## Siu's Products & Distributor TFPP Hinged Container

TFPP (Talc-Filled Polypropylene Plastic)

### Details

TFPP (talc-filled polypropylene plastic) is a blend of talc and polypropylene to create a sturdy, eco-friendly, recyclable & sustainable container. On average containing 40% less plastic polymers thereby reducing overall plastic usage. Ideal for cold and hot foods, TFPP containers are grease and moisture resistance. Microwaveable reheating up to 250 degrees F. Textured sidewalls for secure handling. "Click" closure ensures messy leaks will be avoided. Conveniently stacks for easy storage and practical transport.

Hinge Container	Pack/Ctn	L (in)	W (in)	D (in)	Compartment
HC-61 (6in)	200	19	11.8	17.5	1
HC-81 (8in)	100	16.5	16	16.1	1
HC-8S (8in)	100	16.5	16	16.1	1
HC-83 (8in)	100	16.5	16	16.1	3
HC-91 (9in)	100	18.1	10.6	18.1	1
HC-93 (9in)	100	19.5	18.1	9.1	3
HC-96 (9in)	100	18.1	18.1	17.5	1
